October 2018

Hens Party 6/10/2018

Welcome to several new members and hope present ones remember to pay their renewal fees by end of October. You can find new and renewal forms on Shore Archery Club website under membership. Remember to fill in and then e-mail to secretary.

Go to website to find out what the shoots are on Sunday. There are set shoots in morning for juniors and in afternoon for seniors. At present we have the flexibility to have seniors to join juniors in morning and juniors to join seniors in afternoon, but are expected to follow the set schedule unless there is room to be flexible.

Upcoming events this long weekend at club an attempt to get members together to try and shoot the league shoot which is for seniors 55, 45, 35m juniors 45, 35 25m. We need at least 6 people to make up the 2 teams. We can expect some deserters to go to Auckland's longer range shoot scheduled for whole weekend.

The following weekend Mountain Green have their Opening Day. This is a second chance to shoot the league if we can get enough to go over to their ground to shoot it. See above in previous paragraph re: distances. They will also put on a closer distance for those not yet up to longer range. I encourage newer archers to join in and get familiar with other clubs venues. As you progress I expect you will become familiar with these venues.

Hope to expand the shooting programme to include all of summer season shortly.

In November; we hope you will make yourself available for a number of tasks to tidy up a few items around the place. If you want to take on one of these at a time to suit, you let me know. A list is included below.

- 1 Recirculating pinex in 2 targets.
- 2 Repack one target that at present has a rubber target with pinex.
- 3 Recirculate left hand side of internal shooting wall.
- 4 Replace "garage" floor with ply - as holes in particle board are a hazard.
- 5 This is a job that could be done at home - Make more ground quivers. Using rectangular drain pipe etc to make more of these based on present ones.
- 6 Adjust the present veranda to accommodate a fascia and gutter to connect to present outlet at rear corner of clubroom. Remake present outlet as it may be blocked with stones from path.

All the best to Grant in his recovery from surgery. Grant is Luciana's grandfather and taxi driver.

That's all for update. Will present a longer one to cover Christmas and New Year next month.

Please if you have any questions ask a committee member.

Dennis – Club President
