

# Newsletter #55

Summer 2019

Hello to all our members – New, old and in-between 😊

## GENERAL NEWS AND UPDATES FOR MEMBERS

With a few weather hiccups, summer weather is here so hoping to see you down more often - especially over Christmas/New Year.

**Good news** - We have a new 10 year lease and can progress onto a new clubroom.

Christmas shoot and party on 15th will be a novelty shoot. Get there earlier than 9.30 if you can or give Siu an indication you are coming so we can organize things better with targets and bbq. All family welcome to come - if only for bbq about 11/12.

We are now doing some preliminary investigation into form and cost of new clubroom to present to Local Board in New Year hopefully around February so we can draw on their guidance and hopefully support when submitting building and planning applications.

Over the holiday periods (and for that matter the whole of the summer and year) Dennis can be available to advance your shooting if you only let him know well in advance when you would like to come down and commit to work on any adjustments.

Over Christmas/New Year holidays we can do an exchange with juniors a little assistance with shooting skills for a little work around the club.

On a similar note if you want to learn about fletching or string making and you are around over the holiday please let me know and if we can arrange interested parties to be available at the same time we can put on a workshop.

Also, in New Year we will be contacting you all to clarify what tasks you can assist with during the year to take the pressure of the usual providers of line marking, line mowing, target maintenance, making sure recycling and rubbish bins are put out on time and many more. Again, the minimal club fees cover material - not labour, so please respond positively when approached on this subject.

Andy, our club secretary, will be sending out to all - a Beginners Handbook, which will give guidance on where to go and what to do after joining the club. This is intended for new members but as we are not too sure whether the odd comment over time has to be registered, we thought it would be good to commit it all to "paper".

One last thing if you do not have a Shore Archery shirt let Dennis know your size and he will try and find one to fit in the boxes he has at home. No charge.

Have a safe and happy Festive Season and summer.

Dennis – Club President
